### **MADISON COUNTY IS UP TO 18 CORONAVIRUS CASES**

Anderson, IN - Overnight we received six new positive COVID-19 test results in Madison County, IN. With these six additional cases, we are now at eighteen positive COVID-19 cases. Of the six cases 3 are females and 3 males. The female patients were 99, 92 and 38 while the male patients are 95, 89 and 87. We remind the community about the Stay At Home order to reduce the spread of the virus. During these times, it is very important to check on older neighbors, and older family members, but please check on them by telephone or by speaking thru a window or storm door to prevent the spread of the virus. We plead with the younger generation to stay home, do not hang out with friends, do not embrace others and as always, keep social distancing of at least 6' at all times.

We have setup an email address for citizens to ask questions, or report businesses who are not in compliance with our Public Health Order issued in Madison County, IN. You can email our staff at [healthdept@madisoncounty.in.gov](mailto:healthdept@madisoncounty.in.gov). For coronavirus updates in Madison County, please follow us on Facebook and use our [COVID-19 web page](#) as your official sources of information in Madison County, Indiana.
